Announcement #1

Re: Launching of New Upgraded Fulcrum Global Website

November 19, 2019

Website Upgrade Launch

The new upgraded Fulcrum Global website has been designed after two months of hard work. It will be officially launched on Tuesday, November 19, 2019 and its new website address is: www.fulcrumglobal.us

This will be replacing the old WordPress website (<https://fulcrumglobal.wordpress.com>), which will be rendered obsolete by the end of the day. All the material from the former website has been successfully transferred to the newly upgraded www.fulcrumglobal.us website.

New Opportunities

This new website upgrade marks a new era in the design, appearance, and effectiveness of Fulcrum Global-SDSS as well as giving the organization new areas of growth and development with its updated capabilities. In addition, the new web design offers enormous potential to help promote the mission, projects, and initiatives of Fulcrum Global-SDSS and its role as a virtual student/alumni/faculty based organization within the AMU/APUS umbrella.

New Website Features

The new website offers sections for Featured Articles, Intelligence Briefs, Background Reports, and Video Presentations. It will also include a Resource Library offering literature in fields such as Intelligence, Defense, National Security, Global Security, Writing and Critical Thinking, Power Management, and Professional Growth and Opportunities. There are more useful features on the website and we are always looking for ways to improve it and make it more effective. We are always open for suggestions and assistance.

Going Forward!

Feel free to add the new website to your web browser as well as subscribing to our new E-mail newsletter, where you will receive updates! For questions about the new web design, feel free to [contact us](#) here.

Sincerely,
Sam Kessler
Chief and Managing Editor, Fulcrum Global
